WORK EXPERIENCE

National Mental Health Survey-2 (NMHS-2)

Mar. 2025 – Present

Field Investigator

Haryana, India

- Conducted community-based mental health screening using the ICD-11(FLII-11) structured interview instrument across 6 districts of Haryana.
- Worked with multidisciplinary mental health teams during field-based assessment activities.
- Collected and documented mental health assessment data among adults, adolescents and children.
- Assisted in CPC interviews focusing on behavioral, emotional, and developmental concerns among children.
- Participated in NIMHANS-led training sessions, webinars, and field standardization workshops.
- Maintained ethical research practices and accurate field documentation during large-scale survey operations.

NCERT

May. 2022 – Mar 2023

Junior Research Fellow

New Delhi, India

- Conducted qualitative and quantitative field research among tribal communities including Kadar, Gaddi, Bhils, Reang, and Agariya populations.
- Performed field interviews, data collection, and community observation in remote regions.
- Assisted in data analysis, documentation, and report preparation for educational and social research projects.
- Contributed to script writing and documentary filming and making.
